Executive Summary:

Status and Future Prospects of the KASCADE Cosmic-ray Data Centre KCDC

Andreas Haungs*, Donghwa Kang, Katrin Link, Frank Polgart, Victoria Tokareva, Doris Wochele and Jürgen Wochele Institute for Astroparticle Physics, KIT, Germany

What's KCDC?

- >KCDC is a web-based platform to provide scientific data for the general public
- >KCDC is to archive original research data such as from KASCADE
- >KCDC is to offer long-term scientific data for the community as well as for students and the interested public
- >KCDC is load on a sophisticated web portal

What's new?

- >Independent Data Shops: Allows for Multi-Experimental Analysis
- **▶ Data of new experiment: Maket-Ani**
- >Jupyterhub: https://jupyter.iap.kit.edu supports online, in-KCDC analyses
- >API (Application Programming Interface): Improves systemic data handling
- >KCDC masterclass for students: PoS (ICRC2021) 1378
- > More spectra of various experiments for download

What's next?

- >SKARAGAN 2.0 (July 2021): upgrade on all software components
- >QUALOR (end 2021): replacement of sharded cluster to speed up processing of requests.
